

# Aquatic Mammals Key Word Index

## Volumes 16-30 (Alphabetical)

### ABR

André et al., Evidence of deafness in a striped dolphin, *Stenella coeruleoalba*, 29.1, 3-8.

### abundance

—Aliaga-Rossel, Distribution and abundance of the river dolphin (*Inia geoffrensis*) in the Tijamuchi River, Beni, Bolivia, 28.3, 312-323.

—Kastelein & Weltz, Distribution and behaviour of Steller sea lions (*Eumetopias jubatus*) in Prince William Sound, Alaska, June 1989, 17.2, 91-97.

—Baldwin et al., The Indo-Pacific humpback dolphin of the Arabian region: A status review, 30.1, 111-124.

—Campbell et al., Bottlenose dolphins (*Tursiops truncatus*) in Turneffe Atoll, Belize: Occurrence, site fidelity, group size, and abundance, 28.2, 170-180.

—Hubard et al., Seasonal abundance and site fidelity of bottlenose dolphins (*Tursiops truncatus*) in Mississippi Sound, 30.2, 299-310.

### acoustic behaviour

Rogers, Factors influencing the acoustic behaviour of male phocid seals, 29.2, 247-260.

### acoustic deterrent

Jacobs & Terhune, The effectiveness of acoustic harassment devices in the Bay of Fundy, Canada: Seal reactions and a noise exposure model, 28.2, 147-158.

### acoustic parameters

Azevedo & Simão, Whistles produced by marine tucuxi dolphins (*Sotalia fluviatilis*) in Guanabara Bay, southeastern Brazil, 28.3, 261-266.

### acoustic predation hypothesis

Marten et al., The acoustic predation hypothesis: Linking underwater observations and recordings during odontocete predation and observing the effects of loud impulsive sounds on fish, 27.1, 56-66.

### acoustic ranging

—Wahlberg et al., The source level of harbour seal flipper slaps, 28.1, 90-92.

### acoustic reflectivity

Mooney et al., Target strength of a nylon monofilament and an acoustically enhanced gillnet: Predictions of biosonar detection ranges, 30.2, 220-226.

### acoustic tag

Blomqvist & Amundin, An acoustic tag for recording directional pulsed ultrasounds aimed at free-swimming bottlenose dolphins (*Tursiops truncatus*) by conspecifics, 30.3, 345-356.

### acoustics

—Gannier, The large-scale distribution of humpback whales (*Megaptera novaeangliae*) wintering in French Polynesia during 1997-2002, 30.2, 227-236.

—Goold & Jefferson, A note on clicks recorded from free-ranging Indo-Pacific humpback dolphins, *Sousa chinensis*, 30.1, 175-178.

—Kastelein et al., Free field hearing tests on wild Atlantic walrus (*Odobenus rosmarus rosmarus*) in air, 19.3, 143-148.

—McCowan et al., Social familiarity influences whistle acoustic structure in adult female bottlenose dolphins (*Tursiops truncatus*), 24.1, 27-40.

—Nachtigall et al., Measurements of the low frequency components of active and passive sounds produced by dolphins, 26.3, 167-174.

—Southall et al., Acoustic communication ranges for northern elephant seals (*Mirounga angustirostris*), 29.2, 202-213.

### active space

Southall et al., Acoustic communication ranges for northern elephant seals (*Mirounga angustirostris*), 29.2, 202-213.

### activity budget

Neumann, The activity budget of free-ranging common dolphins (*Delphinus delphis*) in the northwestern Bay of Plenty, New Zealand, 27.2, 121-136.

### activity index

Lammers, Occurrence and behavior of Hawaiian spinner dolphins (*Stenella longirostris*) along Oahu's leeward and south shores, 30.2, 237-250.

### adoption

Simard & Gowans, Two calves in echelon: An alloparental association in Atlantic white-sided dolphins (*Lagenorhynchus acutus*)?, 30.2, 330-334.

### adoptive suckling

Kastelein et al., The suckling of a bottlenose dolphin calf (*Tursiops truncatus*) by a foster mother, and information on transverse birth bands, 16.3, 134-138.

### aerial behaviour

Yazdi, A possible hybrid between the dusky dolphin (*Lagenorhynchus obscurus*) and the southern right whale dolphin (*Lissodelphis peronii*), 28.2, 211-217.

### aerial surveys

Olivera-Gómez & Mellink, Spatial and temporal variation in counts of the Antillean manatee (*Trichechus m. manatus*) during distribution surveys at Bahia de Chetumal, Mexico, 28.3, 285-293.

### age

Rosas et al., The striped dolphin, *Stenella coeruleoalba* (Cetacean:Delphinidae), on the coast of São Paulo State, southeastern Brazil, 28.1, 60-66.

### aggression,

—Bisther, Intergroup interactions among killer whales in Norwegian coastal waters; tolerance vs. aggression at feeding grounds, 28.1, 14-23.

—Parsons et al., Male-male aggression renders bottlenose dolphin (*Tursiops truncatus*) unconscious, 29.3, 360-362.

—Psarakos et al., Mixed-species associations between Pantropical spotted dolphins (*Stenella attenuata*) and Hawaiian spinner dolphins (*Stenella longirostris*) off Oahu, Hawaii, 29.3, 390-395.

### aggressive behaviour

Wedekin et al., An aggressive interaction between bottlenose dolphins (*Tursiops truncatus*) and Estuarine dolphins (*Sotalia guianensis*) in southern Brazil, 30.3, 391-397.

### aggressive sounds

Blomqvist & Amundin, An acoustic tag for recording directional pulsed ultrasounds aimed at free-swimming bottlenose dolphins (*Tursiops truncatus*) by conspecifics, 30.3, 345-356.

### air gun

Madsen et al., Male sperm whale behaviour during exposures to distant seismic survey pulses, 28.3, 231-240.

### Alaska

—Heise et al., Examining the evidence for killer whale predation on Steller sea lions in British Columbia and Alaska, 29.3, 325-334.

—Maniscalco et al., The occurrence of California sea lions (*Zalophus californianus*) in Alaska, 30.3, 427-433.

### alliances,

Parsons et al., Male-male aggression renders bottlenose dolphin (*Tursiops truncatus*) unconscious, 29.3, 360-362.

- allo-suckling  
Insley et al., A review of social recognition in pinnipeds, 29.2, 181-201.
- alloparental association,  
Simard & Gowans, Two calves in echelon: An alloparental association in Atlantic white-sided dolphins (*Lagenorhynchus acutus*)?, 30.2, 330-334.
- ambient noise  
—Kastelein et al., Free field hearing tests on wild Atlantic walruses (*Odobenus rosmarus rosmarus*) in air, 19.3, 143-148.  
—Southall et al., Acoustic communication ranges for northern elephant seals (*Mirounga angustirostris*), 29.2, 202-213.
- amplitude modulation  
Supin & Popov, Frequency-modulation sensitivity in bottlenose dolphins, *Tursiops truncatus*: Evoked-potential study, 26.1, 83-94.
- anatomy  
Kastelein et al., The anatomy of the walrus head (*Odobenus rosmarus*). Part 3: The eyes and their function in walrus ecology, 19.2, 61-92.
- animal communication  
McCowan et al., Social familiarity influences whistle acoustic structure in adult female bottlenose dolphins (*Tursiops truncatus*), 24.1, 27-40.
- anomalous colour pattern  
Tsutsui et al., Pacific white-sided dolphins (*Lagenorhynchus obliquidens*) with anomalous colour patterns in Volcano Bay, Hokkaido, Japan, 27.2, 172-182.
- anomaly  
Yazdi, A possible hybrid between the dusky dolphin (*Lagenorhynchus obscurus*) and the southern right whale dolphin (*Lissodelphis peronii*), 28.2, 211-217.
- anthropogenic sound  
Houser et al., A bandpass filter-bank model of auditory sensitivity in the humpback whale, 27.2, 82-91.
- anti-masking  
Moors & Terhune, Repetition patterns within harp seal (*Pagophilus groenlandicus*) underwater calls, 29.2, 278-288.
- Antillean manatee (*Trichechus m. manatus*)  
—Olivera-Gómez & Mellink, Spatial and temporal variation in counts of the Antillean manatee (*Trichechus m. manatus*) during distribution surveys at Bahia de Chetumal, Mexico, 28.3, 285-293.  
—Self-Sullivan et al., Seasonal occurrence of male Antillean manatees (*Trichechus manatus manatus*) on the Belize Barrier Reef, 29.3, 341-354.  
—Vergara-Parente et al., Bacterial flora of upper respiratory tract of captive Antillean manatees, 29.1, 124-130.
- aquaculture  
—Jacobs & Terhune, The effectiveness of acoustic harassment devices in the Bay of Fundy, Canada: Seal reactions and a noise exposure model, 28.2, 147-158.
- aquatic mammals  
Solntseva, Early embryogenesis of the vestibular apparatus in mammals with different ecologies, 28.2, 159-169.
- aquatic species  
Solntseva, Development of the auditory organ in terrestrial, semi-aquatic, and aquatic mammals, 25.2, 135-148.
- Arabia,  
Baldwin et al., The Indo-Pacific humpback dolphin of the Arabian region: A status review, 30.1, 111-124.
- Archipelago of the Azores  
Silva et al., Occurrence and distribution of cetaceans in the waters around the Azores (Portugal), summer and autumn 1999-2000, 29.1, 77-83.
- Argentina,  
—Iñíguez, Seasonal distribution of killer whales (*Orcinus orca*) in northern Patagonia, Argentina, 27.2, 154-161.  
—Reyes et al., Killer whale (*Orcinus orca*) predation on sharks in Patagonia, Argentina: A first report, 30.3, 376-379.
- Asian small-clawed otters (*Aonyx cinerea*)  
Ross, S. R., The effect of a simple feeding enrichment strategy on the behaviour of two Asian small-clawed otters (*Aonyx cinerea*), 28.2, 113-120.
- association  
Gubbins, Association patterns of resident bottlenose dolphins (*Tursiops truncatus*) in a South Carolina estuary, 28.1, 24-31.
- Atlantic humpback dolphin (*Stenella teuszii*)  
Van Waerebeek et al., Distribution, status, and biology of the Atlantic humpback dolphin, *Sousa teuszii* (Kükenthal, 1892), 30.1, 56-83.
- Atlantic spotted dolphin (*Stenella frontalis*)  
—Griffin & Griffin, Temporal variation in Atlantic spotted dolphin (*Stenella frontalis*) and bottlenose dolphin (*Tursiops truncatus*) densities on the west Florida continental shelf, 30.3, 380-390.  
—Miles & Herzing, Underwater analysis of the behavioural development of free-ranging Atlantic spotted dolphin (*Stenella frontalis*) calves (birth to 4 years of age), 29.3, 363-377.  
—Herzing et al., Interspecies interactions between Atlantic spotted dolphins, *Stenella frontalis* and bottlenose dolphins, *Tursiops truncatus*, on Great Bahama Bank, Bahamas, 29.3, 335-341.
- Atlantic white-sided dolphin (*Lagenorhynchus acutus*)  
—Knieriem & Garcia Hartmann, Comparative histopathology of lungs from by-caught Atlantic white-sided dolphins (*Leucopleurus acutus*), 27.2, 73-81.  
—Nelson & Lien, Behaviour patterns of two captive Atlantic white-sided dolphins, *Lagenorhynchus acutus*, 20.1, 1-20.  
—Simard & Gowans, Two calves in echelon: An alloparental association in Atlantic white-sided dolphins (*Lagenorhynchus acutus*)?, 30.2, 330-334.  
—Wiley et al., Rescue and release of mass stranded cetaceans from beaches on Cape Cod, Massachusetts, USA; 1990-1999: A review of some response actions, 27.2, 162-171.
- Atlantic white-sided dolphin (*Leucopleurus acutus*)  
Knieriem & Garcia Hartmann, Comparative histopathology of lungs from by-caught Atlantic white-sided dolphins (*Leucopleurus acutus*), 27.2, 73-81.
- attack  
Reyes & García-Borboroglu, Killer whale (*Orcinus orca*) predation on sharks in Patagonia, Argentina: A first report, 30.3, 376-379.
- audiogram  
—Ridgway & Carder, Assessing hearing and sound production in cetaceans not available for behavioral audiograms: Experiences with sperm, pygmy sperm, and gray whales, 27.3, 267-276.  
—André et al., Evidence of deafness in a striped dolphin, *Stenella coeruleoalba*, 29.1, 3-8.  
—Houser et al., A bandpass filter-bank model of auditory sensitivity in the humpback whale, 27.2, 82-91.  
—Kastelein et al., Free field hearing tests on wild Atlantic walruses (*Odobenus rosmarus rosmarus*) in air, 19.3, 143-148.
- Australasian gannet  
Neumann & Orams, Feeding behaviours of short-beaked common dolphins, *Delphinus delphis*, in New Zealand, 29.1, 137-149.
- Australia  
—Anderson, Scarring and photo-identification of dugongs (*Dugong dugon*) in Shark Bay, Western Australia, 21.3, 205-211.  
—Parra & Corkeron, Feasibility of using photo-identification techniques to study the Irrawaddy dolphin, *Orcaella brevirostris* (Owen in Gray 1866), 27.1, 45-49.

- Chilvers et al., A new VHF tag and attachment technique for small cetaceans, 27.1, 11-15.
- Parra et al., The Indo-Pacific humpback dolphin, *Sousa chinensis* (Osbeck, 1765), in Australian waters: A summary of current knowledge, 30.1, 197-206.
- Azores**
- Magalhães et al., Short-term reactions of sperm whales (*Physeter macrocephalus*) to whale-watching vessels in the Azores, 28.3, 267-274.
- babysitting**
- Simard & Gowans, Two calves in echelon: An alloparental association in Atlantic white-sided dolphins (*Lagenorhynchus acutus*)?, 30.2, 330-334.
- bacteria and fungi**
- Vergara-Parente et al., Bacterial flora of upper respiratory tract of captive Antillean manatees, 29.1, 124-130.
- Bahia de Chetumal,**
- Olivera-Gómez & Mellink, Spatial and temporal variation in counts of the Antillean manatee (*Trichechus m. manatus*) during distribution surveys at Bahía de Chetumal, Mexico, 28.3, 285-293.
- Baía Norte**
- Wedekin et al., An aggressive interaction between bottlenose dolphins (*Tursiops truncatus*) and estuarine dolphins (*Sotalia guianensis*) in southern Brazil, 30.3, 391-397.
- Balaenoptera**
- Tarpley & Marwitz, Plastic debris ingestion by cetaceans along the Texas coast: Two case reports, 19.2, 93-98.
- Moore et al., Cetacean surveys in the Cape Verde Islands and the use of cookiecutter shark bite lesions as a population marker for fin whales, 29.3, 383-389.
- Balaenoptera edeni**
- Neumann & Orams, Feeding behaviours of short-beaked common dolphins, *Delphinus delphis*, in New Zealand, 29.1, 137-149.
- baleen**
- Sumich, Growth of baleen of a rehabilitating gray whale calf, 27.3, 234-238.
- bang theory,**
- Marten et al., The acoustic predation hypothesis: Linking underwater observations and recordings during odontocete predation and observing the effects of loud impulsive sounds on fish, 27.1, 56-66.
- beaked whales**
- Gannier, Distribution of cetaceans off the Society Islands (French Polynesia) as obtained from dedicated surveys, 26.2, 111-126.
- behavior**
- Castro, Encounter with a school of pygmy killer whales (*Feresa attenuata*) in Ecuador, Southeast Tropical Pacific, 30.3, 441-444.
- Lammers, Occurrence and behavior of Hawaiian spinner dolphins (*Stenella longirostris*) along Oahu's leeward and south shores, 30.2, 237-250.
- Neumann, The activity budget of free-ranging common dolphins (*Delphinus delphis*) in the northwestern Bay of Plenty, New Zealand, 27.2, 121-136.
- Parsons, The behavior and ecology of the Indo-Pacific humpback dolphin (*Sousa chinensis*), 30.1, 38-55.
- Goold & Jefferson, A note on clicks recorded from free-ranging Indo-Pacific humpback dolphins, *Sousa chinensis*, 30.1, 175-178.
- Henry & Hammill, Impact of small boats on the haulout activity of harbour seals (*Phoca vitulina*) in Métis Bay, Saint Lawrence Estuary, Québec, Canada, 27.2, 140-148.
- Kastelein & Wetz, Distribution and behaviour of Steller sea lions (*Eumetopias jubatus*) in Prince William Sound, Alaska, June 1989, 17.2, 91-97.
- Kastelein & Wiepkema, The suckling period of a grey seal (*Halichoerus grypus*) while confined to an outdoor land area, 16.3, 120-128.
- Miles & Herzing, Underwater analysis of the behavioural development of free-ranging Atlantic spotted dolphin (*Stenella frontalis*) calves (birth to 4 years of age), 29.3, 363-377.
- Nelson & Lien, Behaviour patterns of two captive Atlantic white-sided dolphins, *Lagenorhynchus acutus*, 20.1, 1-20.
- Neumann & Orams, Feeding behaviours of short-beaked common dolphins, *Delphinus delphis*, in New Zealand, 29.1, 137-149.
- Stacey & Hvenegaard, Habitat use and behaviour of Irrawaddy dolphins (*Orcaella brevirostris*) in the Mekong River of Laos, 28.1, 1-13.
- Atkins et al., Spatial distribution of Indo-Pacific humpback dolphins (*Sousa chinensis*) at Richards Bay, South Africa: Environmental influences and behavioural patterns, 30.1, 84-93.
- Colbert et al., Husbandry and research training of two Florida manatees (*Trichechus manatus latirostris*), 27.1, 16-23.
- Fedorowicz et al., Food sharing in wild bottlenose dolphins, 29.3, 355-359.
- Kastelein et al., Effective mass transfer in a suckling grey seal (*Halichoerus grypus*), 20.1, 11-27.
- Kastelein et al., The suckling period of a grey seal (*Halichoerus grypus*) while the mother had access to a pool, 17.1, 42-51.
- Magalhães et al., Short-term reactions of sperm whales (*Physeter macrocephalus*) to whale-watching vessels in the Azores, 28.3, 267-274.
- Psarakos et al., Mixed-species associations between Pantropical spotted dolphins (*Stenella attenuata*) and Hawaiian spinner dolphins (*Stenella longirostris*) off Oahu, Hawaii, 29.3, 390-395.
- Santos et al., Behavioral observations of the marine tucuxi dolphin (*Sotalia fluviatilis*) in São Paulo estuarine waters, southeastern Brazil, 26.3, 260-267.
- behavioural ecology**
- Neumann et al., Identifying sexually mature, male short-beaked common dolphins (*Delphinus delphis*) at sea, based on the presence of a postanal hump, 28.2, 181-187.
- behavioural sampling**
- Ritter, Behavioural observations of rough-toothed dolphins (*Steno bredanensis*) off La Gomera, Canary Islands (1995-2000), with special reference to their interactions with humans, 28.1, 46-59.
- Belize**
- Campbell et al., Bottlenose dolphins (*Tursiops truncatus*) in Turneffe Atoll, Belize: Occurrence, site fidelity, group size, and abundance, 28.2, 170-180.
- Self-Sullivan et al., Seasonal occurrence of male Antillean manatees (*Trichechus manatus manatus*) on the Belize Barrier Reef, 29.3, 341-354.
- Belize Barrier Reef**
- Self-Sullivan et al., Seasonal occurrence of male Antillean manatees (*Trichechus manatus manatus*) on the Belize Barrier Reef, 29.3, 341-354.
- beluga**
- Kastelein et al., Food consumption, growth and reproduction of belugas (*Delphinapterus leucas*) in human care, 20.2, 81-97.
- Klishin et al., Hearing capabilities of a beluga whale, *Delphinapterus leucas*, 26.3, 212-228.
- bioacoustics**
- Moore & Ridgway, Whistles produced by common dolphins from the Southern California Bight, 21.1, 55-63.
- Killebrew et al., Sound production of a neonate bottlenose dolphin, 27.1, 34-44.
- Mercado III et al., Stereotypical sound patterns in humpback whale songs: Usage and function, 29.1, 37-52.
- Wahlberg et al., The source level of harbour seal flipper slaps, 28.1, 90-92.

- biological productivity  
Holst & Stirling, A comparison of ringed seal (*Phoca hispida*) biology on the east and west sides of the North Water Polynya, Baffin Bay, 28.3, 221-230.
- biosonar  
Kammaing & Beitsma, Investigations on Cetacean Sonar IX: Remarks on dominant sonar frequencies from *Tursiops truncatus*, 16.1, 14-20.
- birth  
—Guissamulo & Cockcroft, Ecology and population estimates of Indo-Pacific humpback dolphins (*Sousa chinensis*) in Maputo Bay, Mozambique, 30.1, 94-102.  
—Ramos et al., Growth parameters of *Pontoporia blainvillei* and *Sotalia fluviatilis* (Cetacea) in northern Rio de Janeiro, Brazil, 26.1, 65-75.
- blood  
Castellini et al., Differential concentration of glucose in red blood cells and plasma of a rehabilitating gray whale calf, 27.3, 277-278.
- blood spots  
Sanvito et al., Blood spots in Pinnipedia hormone studies: Measure of cortisol levels in southern elephant seals (*Mirounga leonina*), 30.2, 251-256.
- blubber  
Trites & Jonker, Morphometric measurements and body condition of healthy and starveling Steller sea lion pups (*Eumetopias jubatus*), 26.2, 151-157.
- bluenose  
Visser, Killer whale (*Orcinus orca*) interactions with longline fisheries in New Zealand waters, 26.3, 241-252.
- boat disturbance  
Kreb & Rahadi, Living under an aquatic freeway: Effects of boats on Irrawaddy dolphins (*Orcaella brevirostris*) in a coastal and riverine environment in Indonesia, 30.3, 363-375.
- boat strike  
Visser & Fertl, Stranding, resighting, and boat strike of a killer whale (*Orcinus orca*) off New Zealand, 26.3, 232-240.
- boat survey  
—Gannier, Cetaceans of the Marquesas Islands (French Polynesia): Distribution and relative abundance as obtained from a small boat dedicated survey, 28.2, 198-210.  
—Gannier, The large-scale distribution of humpback whales (*Megaptera novaeangliae*) wintering in French Polynesia during 1997-2002, 30.2, 227-236.  
—Sutaria & Jefferson, Records of Indo-Pacific humpback dolphins (*Sousa chinensis*, Osbeck, 1765) along the coasts of India and Sri Lanka: An overview, 30.1, 125-136.
- boat traffic  
—Parsons, The behavior and ecology of the Indo-Pacific humpback dolphin (*Sousa chinensis*), 30.1, 38-55.  
—Gregory & Rowden, Behaviour patterns of bottlenose dolphins (*Tursiops truncatus*) relative to tidal state, time-of-day, and boat traffic in Cardigan Bay, West Wales, 27.2, 105-113.
- boat-based observations  
Magalhães et al., Short-term reactions of sperm whales (*Physeter macrocephalus*) to whale-watching vessels in the Azores, 28.3, 267-274.
- boat-related behaviours  
Ritter, Behavioural observations of rough-toothed dolphins (*Steno bredanensis*) off La Gomera, Canary Islands (1995-2000), with special reference to their interactions with humans, 28.1, 46-59.
- body condition  
Trites & Jonker, Morphometric measurements and body condition of healthy and starveling Steller sea lion pups (*Eumetopias jubatus*), 26.2, 151-157.
- body length  
Kastelein et al., Food consumption, food passage time, and body measurements of captive Atlantic bottlenose dolphins (*Tursiops truncatus*), 29.1, 53-66.
- body mass  
Kastelein et al., Food consumption, food passage time, and body measurements of captive Atlantic bottlenose dolphins (*Tursiops truncatus*), 29.1, 53-66.
- body size  
Kastelein & van Battum, The relationship between body weight and morphological measurements in harbour porpoises (*Phocoena phocoena*) from the North Sea, 16.2, 48-52.
- body weight  
Kastelein et al., Food consumption and body weight of captive Pacific walruses (*Odobenus rosmarus divergens*), 26.3, 175-190.
- Bolivia  
Aliaga-Rossel, Distribution and abundance of the river dolphin (*Inia geoffrensis*) in the Tijamuchi River, Beni, Bolivia, 28.3, 312-323.
- bony fishes  
di Benedetto et al., Stomach contents of delphinids from Rio de Janeiro, southeastern Brazil, 27.1, 24-28.
- boto  
Aliaga-Rossel, Distribution and abundance of the river dolphin (*Inia geoffrensis*) in the Tijamuchi River, Beni, Bolivia, 28.3, 312-323.
- bottlenose dolphin (*Tursiops truncatus*)  
—Bristow, Changes in coastal site usage by bottlenose dolphins (*Tursiops truncatus*) in Cardigan Bay, Wales, 30.3, 398-404.  
—Gubbins, Association patterns of resident bottlenose dolphins (*Tursiops truncatus*) in a South Carolina estuary, 28.1, 24-31.  
—Hartmann, The European studbook of bottlenose dolphins (*Tursiops truncatus*): 1998 survey results, 26.2, 95-100.  
—Harzen, Use of an electronic theodolite in the study of movements of the bottlenose dolphin (*Tursiops truncatus*) in the Sado Estuary, Portugal, 28.3, 251-260.  
—Noke, The association of echeneids with bottlenose dolphins (*Tursiops truncatus*) in the Indian River Lagoon, Florida, USA, 30.2, 296-298.  
—Pace, Fluke-made bubble rings as toys in bottlenose dolphin calves (*Tursiops truncatus*), 26.1, 57-64.  
—Acevedo-Gutiérrez & Stienessen, Bottlenose dolphins (*Tursiops truncatus*) increase number of whistles when feeding, 30.3, 357-362.  
—Berghan & Visser, Vertebral column malformations in New Zealand delphinids with a review of cases world wide, 26.1, 17-25.  
—Blomqvist & Amundin, An acoustic tag for recording directional pulsed ultrasounds aimed at free-swimming bottlenose dolphins (*Tursiops truncatus*) by conspecifics, 30.3, 345-356.  
—Bristow & Rees, Site fidelity and behaviour of bottlenose dolphins (*Tursiops truncatus*) in Cardigan Bay, Wales, 27.1, 1-10.  
—Gregory & Rowden, Behaviour patterns of bottlenose dolphins (*Tursiops truncatus*) relative to tidal state, time-of-day, and boat traffic in Cardigan Bay, West Wales, 27.2, 105-113.  
—Grellier & Wilson, Bottlenose dolphins using the Sound of Barra, Scotland, 29.3, 378-382.  
—Griffin & Griffin, Temporal variation in Atlantic spotted dolphin (*Stenella frontalis*) and bottlenose dolphin (*Tursiops truncatus*) densities on the west Florida continental shelf, 30.3, 380-390.  
—Kammaing & Beitsma, Investigations on Cetacean Sonar IX: Remarks on dominant sonar frequencies from *Tursiops truncatus*, 16.1, 14-20.  
—Müller & Bossley, Solitary bottlenose dolphins in comparative perspective, 28.3, 298-307.

- Barros et al., Prey of offshore bottlenose dolphins from the South China Sea, 26.1, 2-6.
